Experience

Software Development Intern, E-Systems AI Solutions, Hyderabad Mar 2024 – June 2024

- Developed and optimized web applications using React, HTML, and Express for the organization's e-commerce website, enhancing user experience and performance.
- Led a project to redesign the website architecture, improving scalability and maintainability using modern frameworks and best practices.

Education

VNR Vignan Jyothi Institute of Technology, Bachelor of Technology in Computer Science and Engineering 2022 – 2026

- CGPA: 9.68

Technical Skills

- **Programming Languages:** Python, C++ , Java, JavaScript.
- **Libraries and Tools:** ReactJS, Node.js, Flask, Firebase, SQL, Git, Linux, Machine Learning
- **Skills:** Object-Oriented Programming, Data Structures, Algorithms, Problem-Solving, Team Collaboration and Good Communication Skills.

Projects

Image Recognition and Face Recognition API (Flask, Machine Learning, Data Analysis)

- Developed a robust API that leverages machine learning models for image and face recognition, supporting various applications in security and automation.
- Integrated a YOLO Lite model for object detection, achieving high accuracy and real-time processing capabilities.

Disease Prediction Using Machine Learning (Data Cleaning, ReactJS, MongoDB, Fast2SMS API)

- Created a machine learning platform to predict potential health conditions, providing users with insights and alerts based on symptom data..
- Improved model accuracy by implementing data preprocessing techniques and feature engineering.

ToolsGo – Digital Agricultural Equipment Rental Platform (React, Express, DB, OpenAI, Weather API)

- Designed and developed a platform connecting farmers with contractors for equipment rentals, incorporating real-time weather updates and multilingual support.
- Implemented features such as tool listings, user reviews, and booking capabilities, enhancing UI/UX.

Achievements

- **Winner, CodeFest Hackathon 2023:** Led a team to develop an award-winning web app solution, recognized for its innovation and impact.
- **Won Many Coding Contests:** like Turing cup2k23-24, codechef, leetcode(501-Global rank), GFG Job-A-Thon etc.
- **Runner-Up, GDSC Hackathon 2023:** Developed a solution for agricultural sustainability (ToolsGo website), demonstrating problem-solving skills and creativity.
- **Competitive Programming:** Achieved a global rank of 2340 in Smartinterviews, showcasing strong problem-solving skills for solving 800+ problems across leetcode, codechef and interviewBit.
- **Selected for Flipkart Grid 6.0:** Chosen for a prestigious program focused on machine learning and e-commerce, highlighting technical proficiency and potential.

Certifications and Extracurricular Activites

- **Android Development, Web Development (MERN Stack)** Udemy, May 2023.
- **CS50 Fundamentals of Computer Science and AI**, Harvard University, August 2023.
- **Technical Coding Club Member abd**, VNR Vignan Jyothi Institute of Technology, August 2023.
- **Technical Coding Club Member**, VNR Vignan Jyothi Institute of Technology, August 2023.
- **Volunteer**, Assisted NGOs in supporting the elderly, demonstrating leadership and community engagement.
